

## EDGE FINDING

### StudSensor™ EDGE

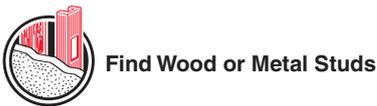

#### Stud Finder with SpotLite® Pointing System and a Revolutionary New Shape

The maker of the original StudSensor™ is now taking stud finding to the next generation. First in a new line of product overhauls, the StudSensor™ EDGE is a complete redesign of Zircon's most popular tool.

Its new patented pinch grip design features a body molded specifically to fit comfortably in the palm of your hand. The end result is a secure hold in either hand at any angle providing a new level of ease, comfort, and utility to the user. The EDGE also features a user-friendly interface and improved SpotLite® Pointing System which shines a bright arrow-shaped beam on the wall to clearly identify the edge of the target.

The bevy of improvements and the revolutionary new design make it our best entry-level stud finder yet.

- Locates the **edges of wood or metal studs** up to 19 mm deep
- New **"Ready" light** indicates when calibration has completed successfully
- New **"Edge" light** indicates when the tool is over a stud edge
- Updated **SpotLite® Pointer** shines an arrow-shaped light on the wall to mark the target
- Should scanning begin over a stud, Zircon's patented **"over-the-stud"** indicator alerts the user to start the scan in a new location
- New **ergonomic design** can be comfortably held in either hand at any angle

#### SPECIFICATIONS

<b>Dimensions</b>	136 mm H x 55 mm W x 34 mm D
<b>Weight</b>	57 g without battery
<b>Battery Type</b>	9V alkaline, required
<b>Position Accuracy*</b>	<b>Wood studs:</b> Typically within 3 mm using the dual scan and mark procedure <b>Metal studs:</b> Typically within 13 mm using the dual scan and mark procedure
<b>Depth*</b>	Typically up to 19 mm
<b>Operating Temperature</b>	-7° to 41°C
<b>Storage Temperature</b>	-29° to 66°C
<b>Humidity</b>	5-90% RH (non-condensing)
<b>Water Resistance</b>	Splash and water resistant, not waterproof

\*NOTE: Sensing depth and accuracy can vary due to moisture, content of materials, wall texture, paint, etc. Not recommended for use on lath and plaster. Indoor use only.
